THE UNIVERSITY OF ALBERTA STAFF BULLETIN

EDMONTON 7, ALBERTA

MAY 7, 1970

Beginning this month and extending into the summer, two more utilities projects will be added to similar works already underway on campus. The map shows the paths of these projects; detailed construction schedule is given below.

CHEMISTRY LECTURE SERIES

This year's lecturer for the Reuben Benjamin Sandin Lecture Series, sponsored by the Department of Chemistry, will be EMANUEL VOGEL, Professor of Organic Chemistry at the University of Cologne, West Germany.

The lectures will be on May 19, 20, 21, and 22 at 11 a.m. in Room V-107 of the Physical Sciences Complex. The topic of Professor Vogel's lectures on May 19 and 20 will be "Aromatic 10 π -Electron Systems." Part I will be on May 19 and Part II on May 20. Parts I and II of "Aromatic and Non-Aromatic 14 π Systems" will be given on May 21 and 22 respectively. All are welcome to attend.

Professor Vogel completed his PhD at the University of Karlsruhe and pursued postdoctoral work at the University of Glasgow and at the Massachusetts Institute of Technology before being appointed a *Privatdozent* at the University of Karlsruhe. As a result of his outstanding early work, he was asked, at the age of thirty-three, to assume his present position, succeeding the late Professor Kurt Alder. Professor Vogel's honorary lectureships include Distinguished Visiting Professor at Fordham University; Kharasch Visiting Professor, University of Chicago; and Reilly Lecturer, University of Notre Dame.

TWO MORE UTILITIES CONTRACTS

The Provincial Department of Public Works will be awarding two more contracts for utility work on campus within the next few weeks.

Whissel Enterprises Limited will be the contractor for phase 5b of the Sewerage System Program, with their bid of \$144,985. Sewer work on 89 Avenue east of 112 Street and including a lateral branch to the Law Centre site will cause closure of the street after mid-May. This block of 89 Avenue will not be repaved or reopened as a thoroughfare; traffic studies indicate it can be eliminated in view of long range development of the area. Installation of this sewer requires that the sewer and water serving the Tuck Shop be cut; for this reason the Tuck Shop will be closed permanently. The other section of the sewer in the vicinity of 87 Avenue and 112 Street is expected to cause little or no disruption to traffic as the intention is to tunnel the sewer under 87 Avenue.

The other work, phase 2 of the Water Distribution System, will be contracted by Alta-West Construction Limited. Their low bid was \$186,716. The schedule of the work is:

Section across Physical Education grounds—May, 1970; section on 112 Street, 84

Avenue to 87 Avenue—May 15 to June 30; section east of the Jubilee Auditorium—July 6 to July 31; section in vicinity of Aberhart Sanatorium, Veterans' Nursing Home, W. W. Cross Institute—July 15 to October 31; section east of Corbett Hall—June 15 to July 15; section on 114 Street northeast of Nurses' Residence—June 15 to July 15.

These dates have been set wherever possible to occur at times of minimum traffic in or use of the area. Nevertheless, watch for detours, temporary one way streets and so forth.

PEOPLE

■ J. A. JACOBS, Killam Memorial Professor of Science, was invited to attend the NATO Advanced Study Institute on the Moon and Planets at Newcastle, England, from April 9 to 16. He also attended the symposium on The Nature of the Solid Earth, held in honor of Professor Francis Birch at Harvard University, April 16 to 18.

■ THOMAS H. PATCHING, Professor of Mining in the Department of Mining and Metallurgy, was elected to the presidency of the Canadian Institute of Mining and Metallurgy for 1971 at the annual meeting of the CIMM in Toronto.

■ BARBARA MOTYL, Co-ordinator of the Medical Laboratory Science program in the Department of Pathology, has been named the recipient of the Gold Medal of the Canadian Society of Laboratory Technologists. This award is given for the outstanding contribution to medical technology in Canada.

■ D. D. BETTS, Professor of Physics, the retiring member of the FOLIO Advisory Committee, has been awarded a Nuffield Foundation grant to assist him financially while on sabbatical leave at the University of London during the coming year.

BOOKS

■ J. A. JACOBS, Killam Memorial Professor of Science, has had published *Geomagnetic Micropulsations, Physics and Chemistry in Space*, Volume I, by the Springer Verlag

■ A. Ziemsen of Wittenberg, East Germany, has published *Die Schnechühner* (The Parmigans) by E. O. HOHN, Associate Professor of Physiology, in the series *Die Neue Brehm Bücherei*.

NOTICES

ADMINISTRATIVE OFFICER SOUGHT

Applicants are sought for the position of Assistant to the Administrator of Student Awards. This is a male position at the Administrative Officer I level, with the possibility of promotion. A degree and at least three years' business or administration experience are required. Application should be made to R. B. WISHART, Administrator of Student Awards.

BOTANIC GARDEN VISITING HOURS

The Botanic Garden and Field Laboratory of the Department of Botany will be open to the public at certain periods through the spring and summer.

The Garden will be open from 1 p.m. until 7 p.m. on the following Saturdays: May 9; June 13; July 11; July 19; August 8; and September 12.

To reach the Garden from Highway 16 West, visitors should turn south on the Devon Highway (Highway 60) and travel south for nine miles. The Garden is located on the east side of the road and is marked by signs. Coming from Devon, visitors should drive north on Highway 60 for approximately three miles from the bridge crossing the North Saskatchewan River.

Insect repellent is needed and ladies should wear flat-heeled shoes.

MECHANICAL ENGINEERING INDUSTRIAL SEMINAR

On May 9 the Department of Mechanical Engineering will hold its second Mechanical Engineering Industrial Seminar, beginning at 9 a.m. The object of the seminar is to review the Mechanical Engineering curricula with senior members of the industrial community with a view to discussing common problems and asking industry's reaction to the training which is being provided for our undergraduate and graduate engineers.
